REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)
SPRAGUE-REI-1

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 5,842,629, granted December 1, 1998 and for which a reissue patent is sought on the invention entitled VERI MAG PACK

the specification of which

☐ is attached hereto.

☒ was filed on February 16, 2000 as reissue application number 09/458,132

and was amended on February 16, 2000, December 15, 2000, July 6, 2001, December 3, 2001, March 27, 2002, August 6, 2002, October 9, 2002, January 9, 2003
(if applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☒ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

1. The patentees claimed less than they had the right to claim in the patent. In particular, all issued claims of the '629 patent require "a line of perforations at...the...bottom of the package, the bottom line of perforations intersecting the die cut transparent cellophane window to provide a quick release feature that exposes a portion of the data card". The bottom perforation is a features only of one illustrated embodiment and constitutes an unnecessary limitations. New claims 17 and 18 have been added in this reissue application to eliminate the presence of perforations along the bottom of the card, broadening the claims to "a line of perforations at the top and along one side of the package."

2. There are defects in the specification. In particular, there are various grammatical and punctuation errors in need of correction.
